

NONPROFIT CAPACITY BUILDING PROGRAM

Strengthening nonprofits to strengthen the whole community.

The Omaha Community Foundation believes that strengthening nonprofits ultimately strengthens the whole community. Simply put, a good nonprofit organization has a strong board that hires capable staff that runs quality programs. To help nonprofits operate like this, in 2010 we created the Nonprofit Capacity Building program. This 24-month curriculum is designed to strengthen organizational and leadership capacity needs. Ten nonprofits are chosen each year to participate in the class. Participating nonprofits are listed below.
